

HUGE

Flexible Block

HUGE Flexible Block is fabricated from a strong biocompatible nylon thermoplastic compound

High Tensile
& Flexural Strength

Fatigue Resistance

Low Water Absorption

Excellent Stability

For the production of removable partial dentures (RPD'S), invisible crystal clear frame-works, night guards, clasps, and other metal-free removable dental appliances processed by CAD/CAM milling machines.

Flexible Block

● Indications

- Invisible clear-transparent frameworks
- Night guards
- Clasps and other dental appliances processed by CAD/CAM milling machines for light weight, aesthetic non-metallic restorations.

● Benefit

- Through CAD/CAM production, HUGE Flexible Block eliminates the wax-up stage, investing, casting and finishing
- HUGE Flexible Block when used for any type of denture, eliminates the need of metal reinforcements and metal clasps, improving aesthetics and patient comfort, avoiding the aesthetic compromise of metal clasp, which is replaced with a transparent translucent clasp
- Biocompatible, low water absorption
- Extremely unbreakable
- Lower weight, durable and precision
